

1. Oinsa tama no konfigura BIOS tuir marka komputador ida idak nian ?  
Waihira ita atu tama BIOS uluk nanain ita tenki hatene lai BIOS, saida mak BIOS..?  
BIOS nia signifika mak (Basic Input Output Sistem), BIOS nia funsaun atu kontrola sasan/komponente sira iha komputador.
  - Komputador Marka TOSHIBA, wainhira komputador moris, ita atu tama no konfigura BIOS ne'e ita presisa hanehan butaun F2, hanehan hela deit to nia tama iha nia konfigurasaun BIOS.  
No BIOS ita uza deit butaun mak atu manda no halo konfigura ba nia konfigurasaun sira ne'ebe maka iha,  
Nia janela mak hanesan iha kraik ne'e :  
- Janela primeiro Komputador ho marka TOSHIBA mak hanesan iha kraik ne'e :

- Janelia BIOS nian mak hanesan iha kraik ne'e :

- Se wainhira ita konfigura hotu ona BIOS entaun ita tenki hanehan butaun F10 atu nu'une'e ita bele rai/save data ne'ebe ohin ita konfigura ona, no nia mosu tan janela kiik ida no ita hili yes atu save, mak hanesan iha janela kraik ne'e :

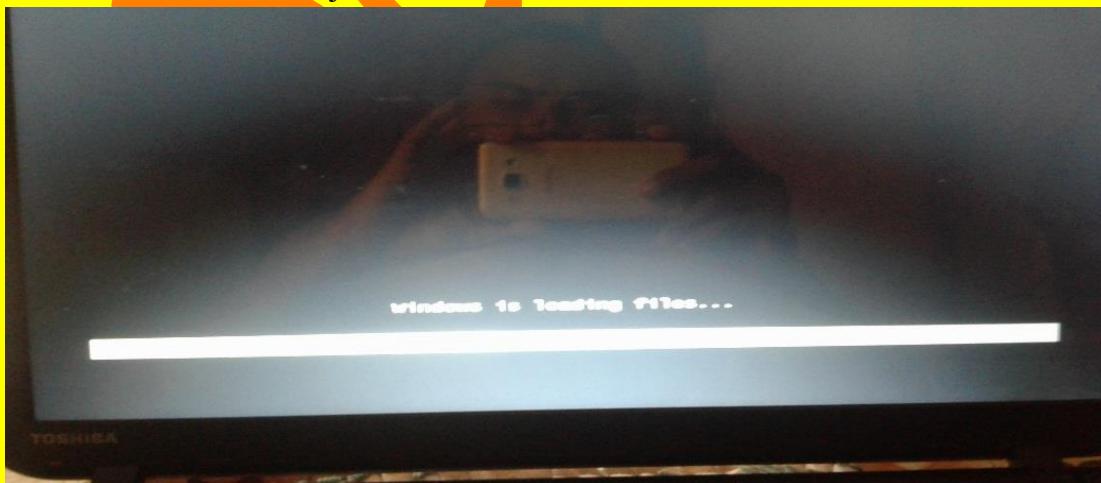

## 2. Processu atu instal :

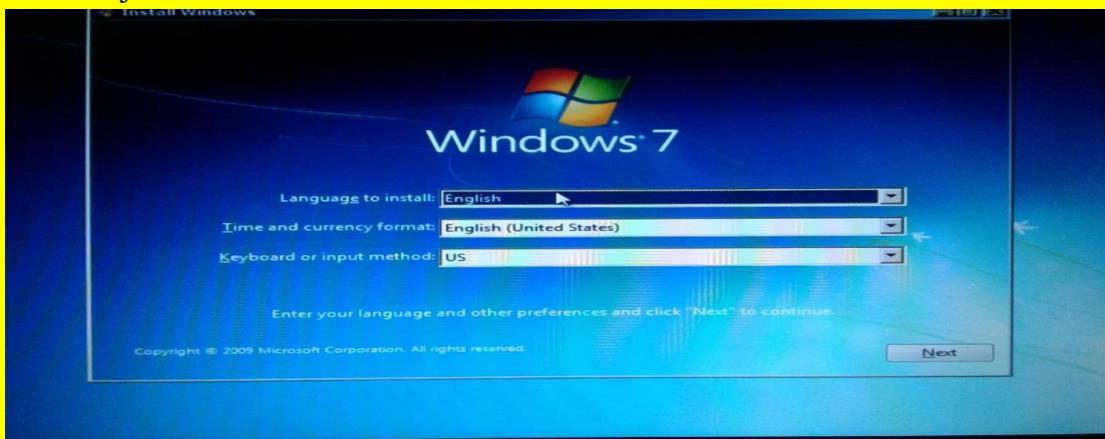

- ## - Windows 7

Prosesu instal Sistem Operativu Windows 7, mak hanesan iha janela kraik ne'e : Primeiru ita hatama uluk CD ba iha CD Rom, no Restar komputador, no Komputador moris ita tama lai iha konfigurasaun BIOS atu nu'une'e ita bele konfigura, konfigurasaun BOOT hodi hili komputador moris lao ho Hard disk ka CD Rom ka USB, no ita hili CD Room atu nu'une nia bele le'e Sistem Operasi iha CD Rom no ita SAVE tia komputador sei restar rasik no nia sei mosu Press Any Key to Boot from CD...nia haruka ita atu hanehan butaun ida atu lao ho CD or DVD mak hanesan iha janela kraik ne'e :

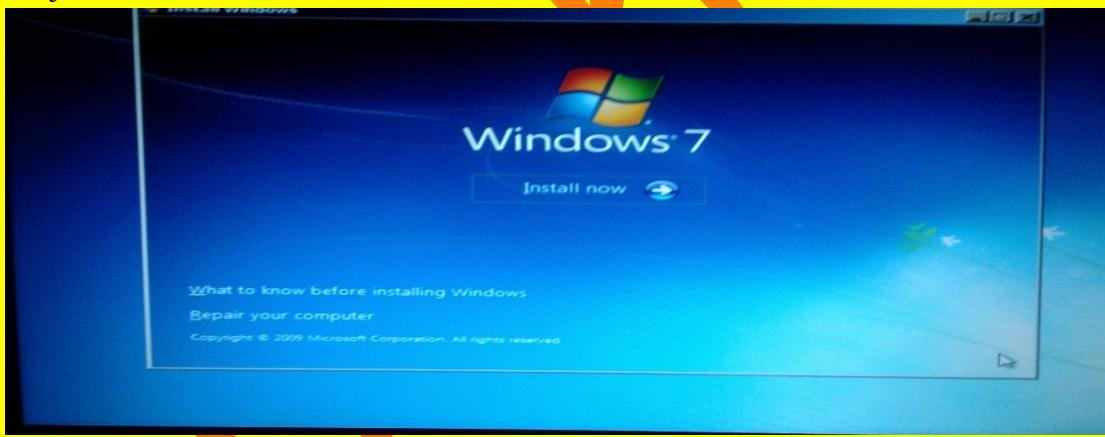

Depois de ita hanehan butaun ida nia sei hahu ho Sistem operasi ne'ebe iha CD nia laran no nia sei mosu tan janela ida hanesan iha kraik ne'e :

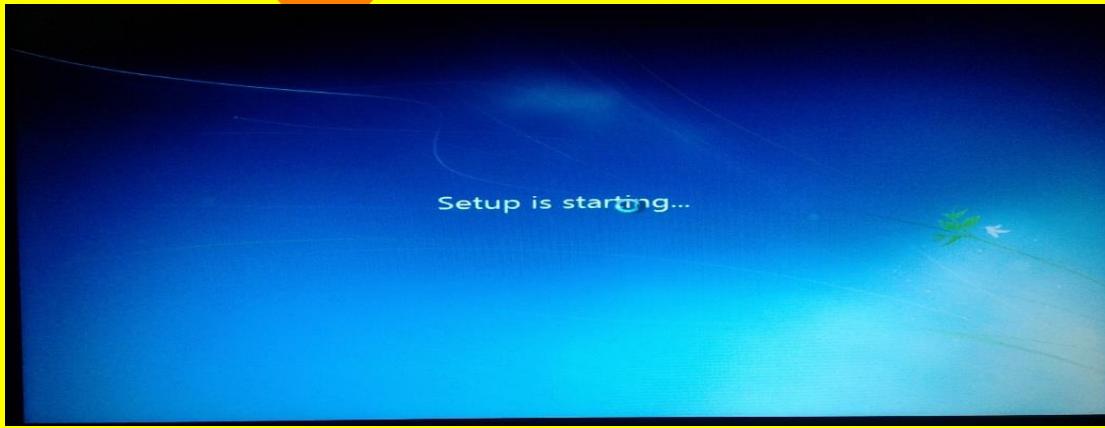

Depois nia mosu tan janela ida, no nia haruka ita atu hili linguagem no ita hili deit  
Next nia janela mak hanesan iha kraik ne'e :

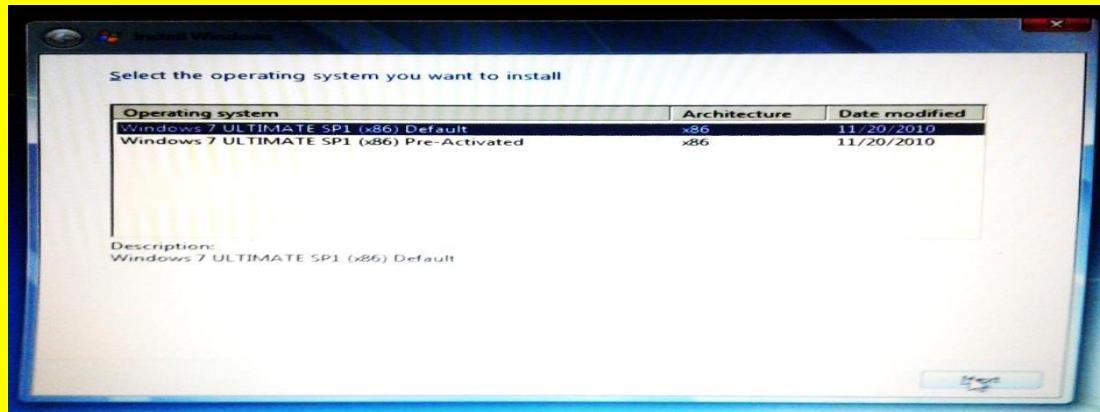

Depois nia sei mosu tan janela ida hodi haruka ita atu instal, no ita hili Instal Now, nia janela mak hanesan iha kraik ne'e :

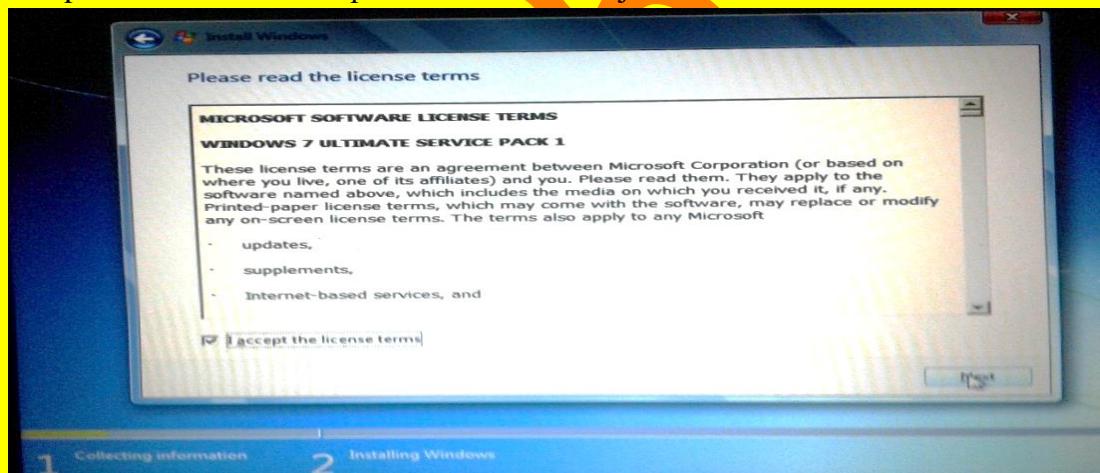

Depois nia sei mosu tan Setup Starting, no nia janela mak hanesan iha kraik ne'e :

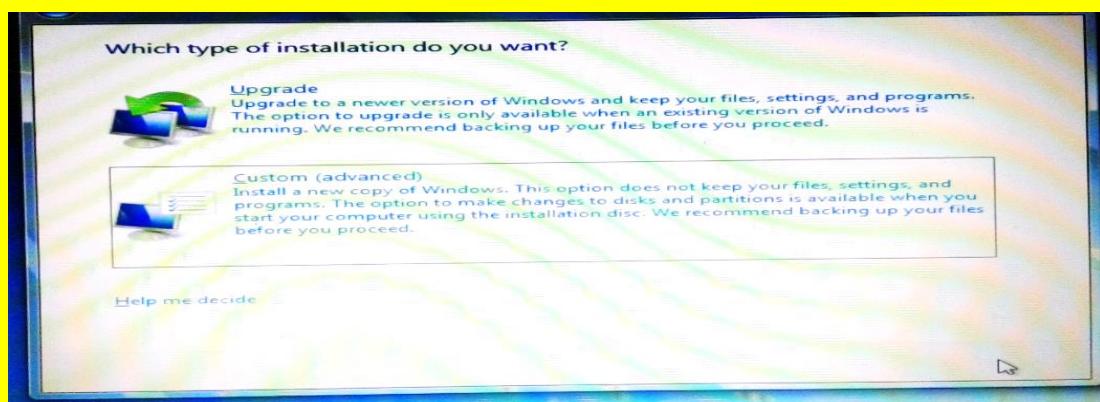

Depois nia sei mosu tan atu ita hili windows 7 ULTIMATE SP1 (x86) Default ka windows 7 ULTIMATE SP1 (x86) Pre-Activated no ita hili windows 7 ULTIMATE SP1 (x86) Default hotu ita hili Next no nia janela mak hanesan iha kraik ne'e :

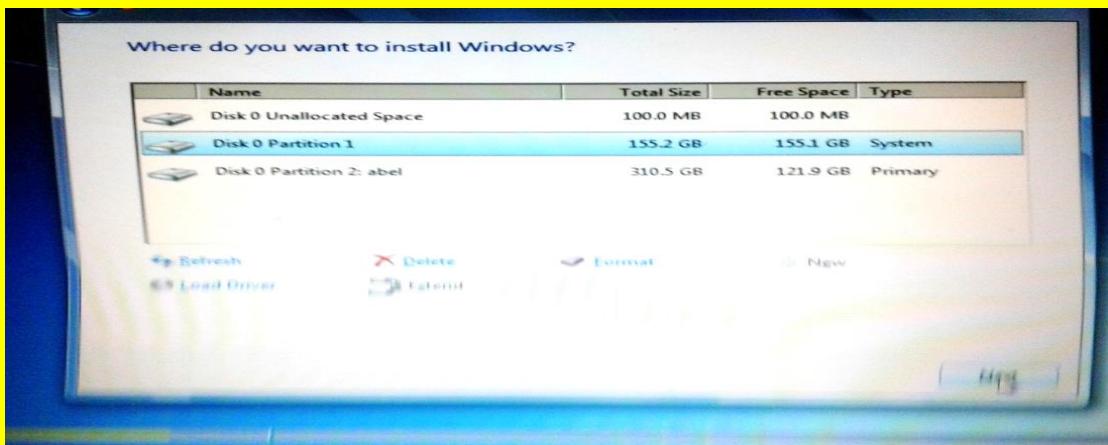

Depois nia sei mosu tan janela Lisens husi windows 7 nian, no ita fo Vistu ba iha I accept the license terms depois ita hili Next nia janela mak hanesan iha kraik ne'e:

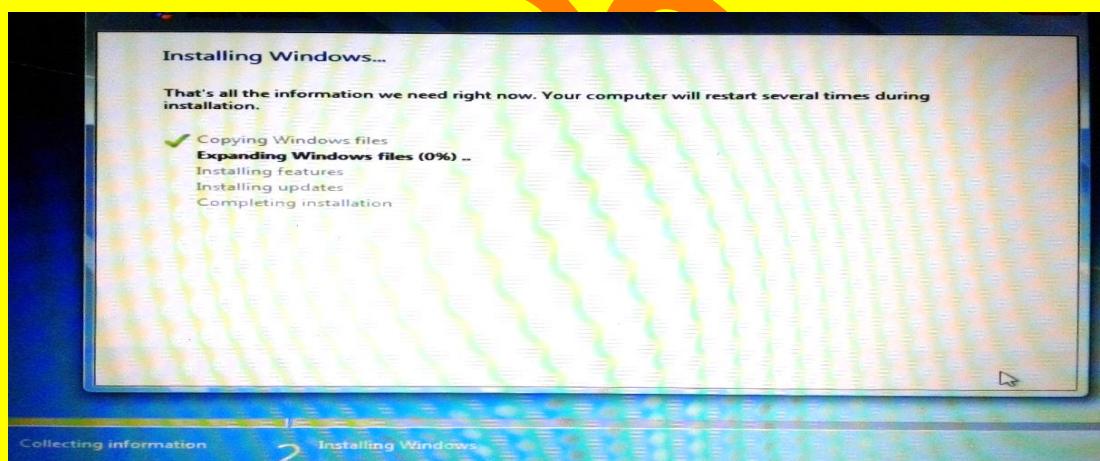

Depois nia sei mosu janela ida no nia haruka ita atu hili tipu rua mak hanesan Upgrade no Custom (advanced) no ita hili Custom (advanced) nia janela mak hanesan iha kraik ne'e :

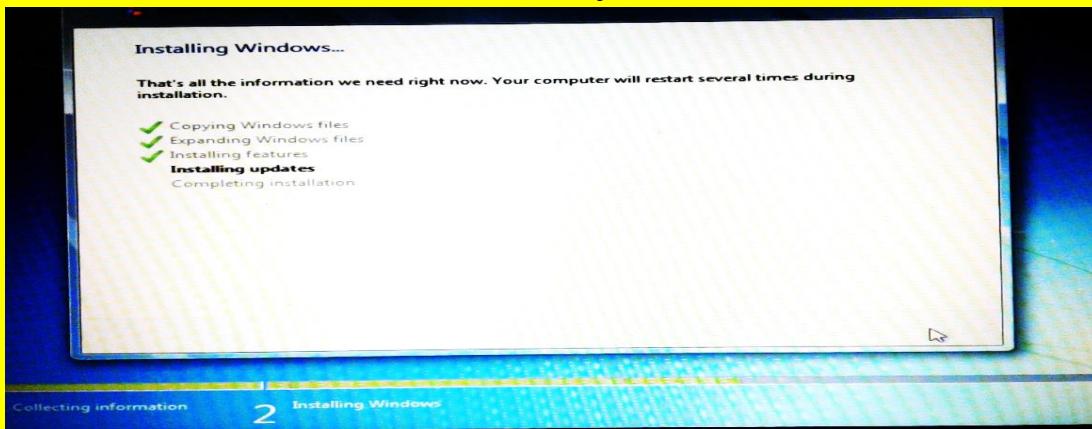

Depois nia sei mosu tan parti ci no ita hili Partition 1 hotu tia hili Next nia janela mak hanesan iha kraik ne'e :

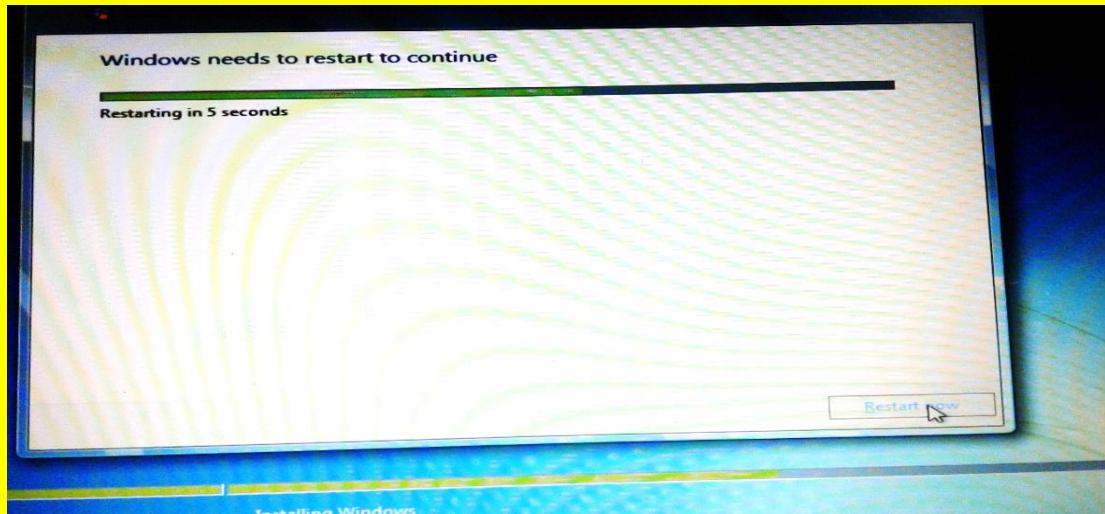

Depois nia sei mosu tan prosesu intalasaun no ita mos sei hein kleur uitoan, nia janela mak hanesan iha kraik ne'e :

Depois ita hein to nia prosesu to iha Istalling Updates no nia sei Restar rasik no ita labele hanehan butaun no ita husik deit no nia janela mak hanesan ita kraik ne'e :

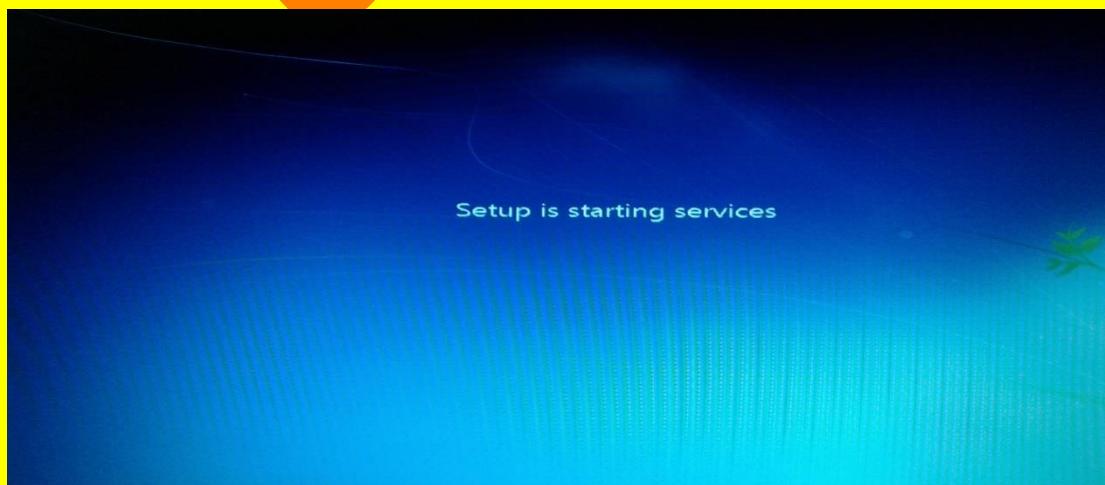

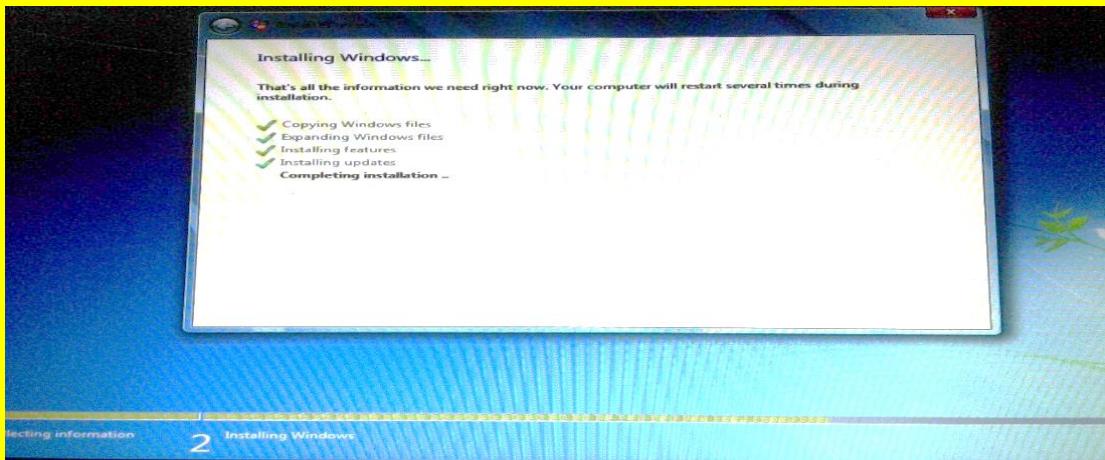

Depois de nia Restar nia mosu tan janela ida hakerek Setup is updating registry settings mak hanesan iha kraik ne'e :

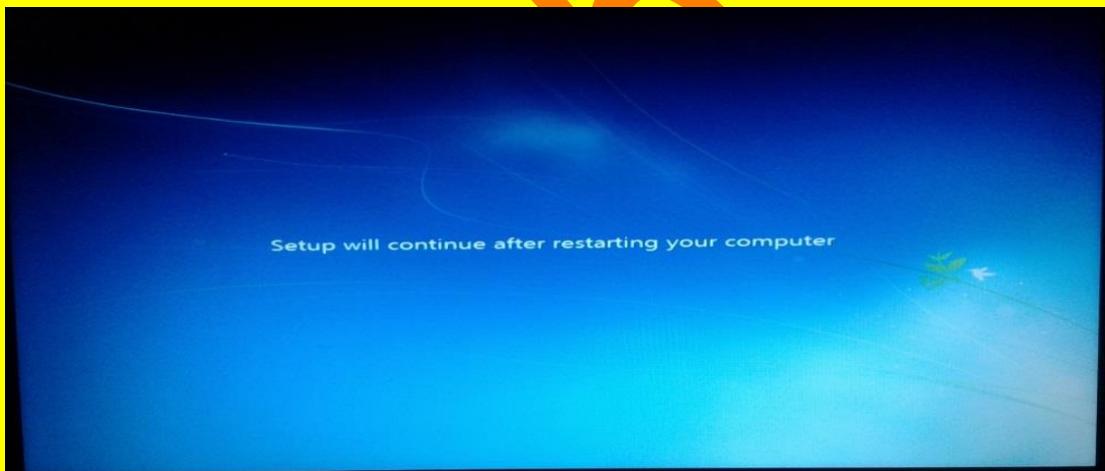

Depois nia mosu tan janela ida ho hakerek Setup is strartin services nia janela mak hanesan iha kraik ne'e :

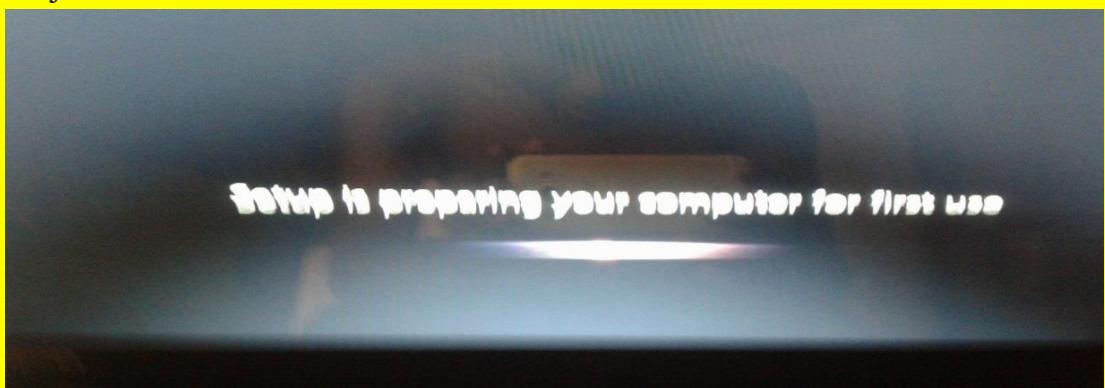

Depois nia sei mosu tan janela instalasaun nian no nia sei hahu ho Completing Instalation no nia janela mak hanesan iha kraik ne'e :

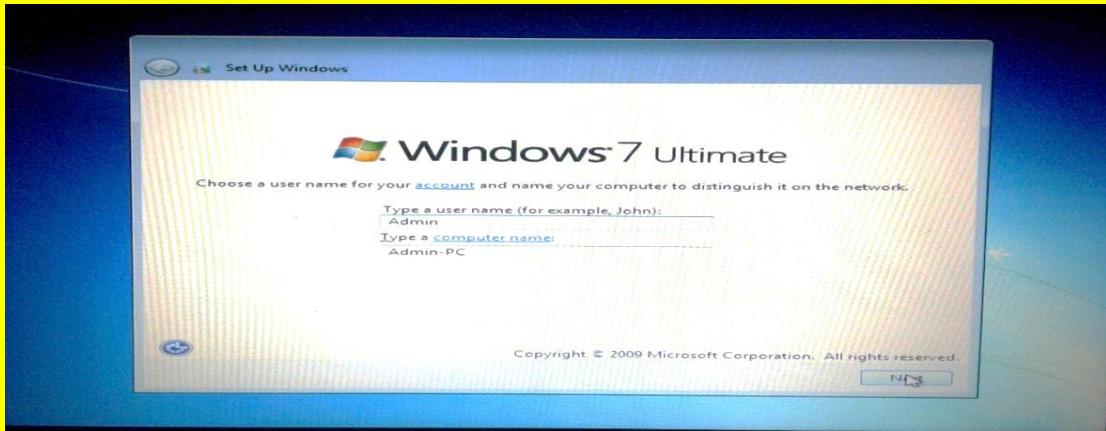

Depois nia mosu tan Setup will continue after restarting your computer nia janela mak hanesan iha kraik ne'e :

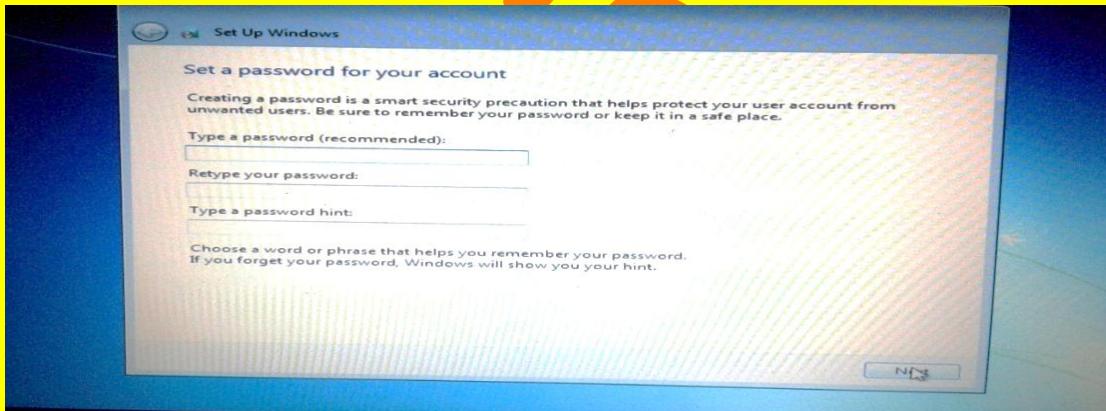

Depois nia Restar tan no nia mosu Setup is preparing your computer for first use no nia janela mak hanesan iha kraik ne'e :

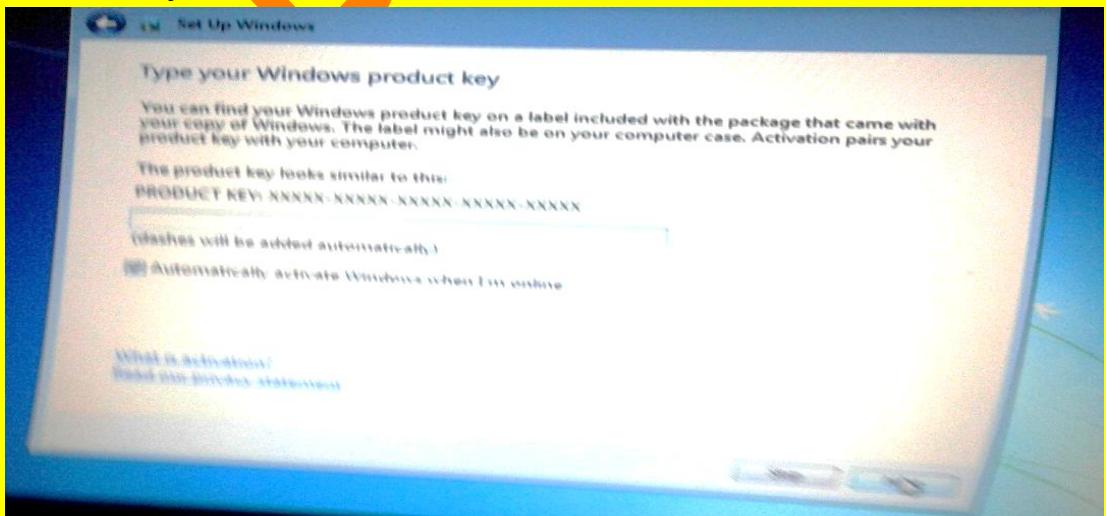

Depois nia mosu tan janela ida no nia haruka ita atu tau Naran, no ita tau naran hotu, ita hili Next, nia janela mak hanesan iha kraik ne'e :

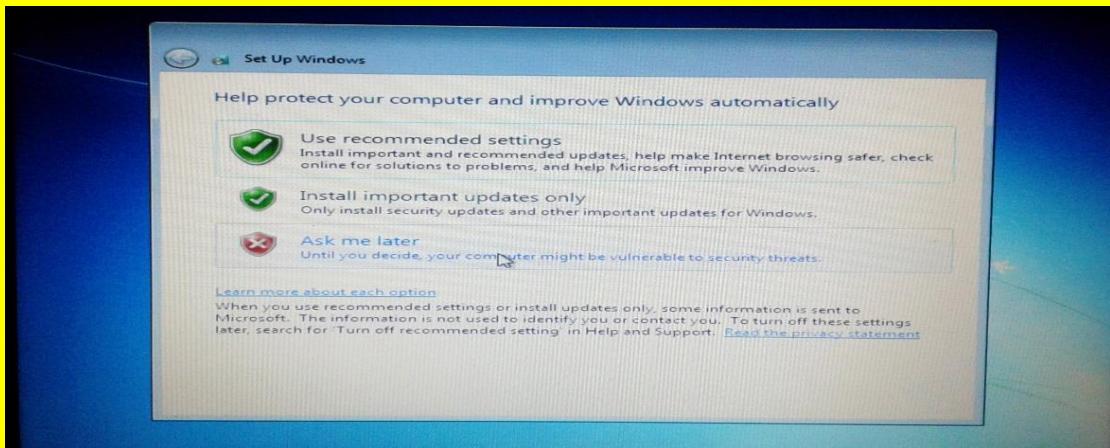

Depois nia mosu tan janela ida hodi haruka ita atu tau password no konforme ita, atu tau ka lalika tau ms diak, hotu ita hili Next nia janela mak hanesan iha kraik ne'e :

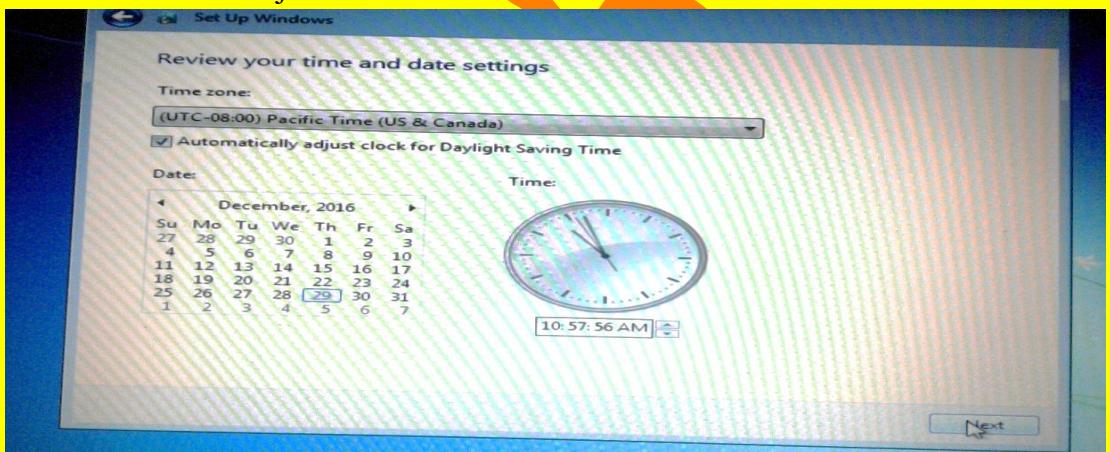

Depois nia mosu tan janela ida no nia haruka ita atu tau Product Key no ita hili deit Next, no nia janela mak hanesan iha kraik ne'e:

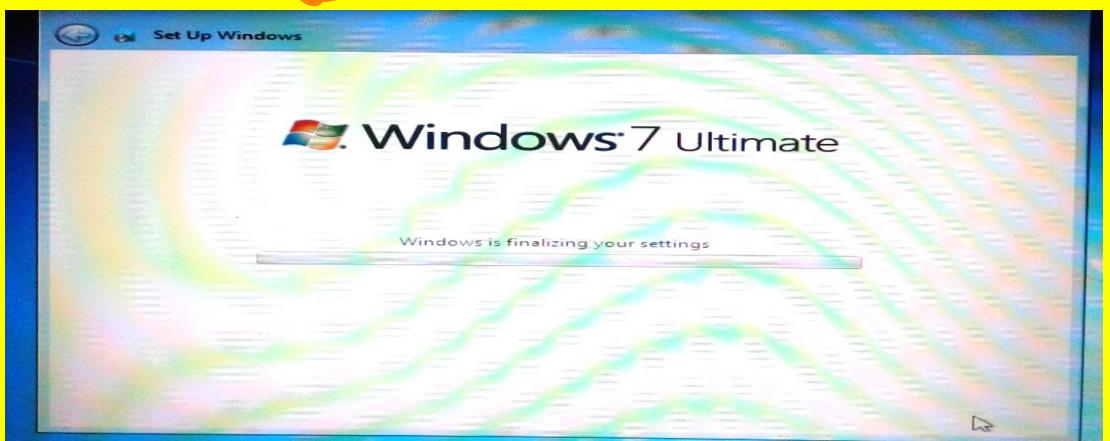

Depois nia mosu tan janela ida mak hanesan iha kraik ne'e, no ita hili Ask me later nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela ida haruka ita atu halo konfigurasau ba Oras no Data hotu ita hili Next nia janela mak hanesan iha kraik ne'e :

Depois tan prosesu ikus nian atu tama ba desktop no ita hein deit, no nia janela mak hanesan iha kraik ne'e :

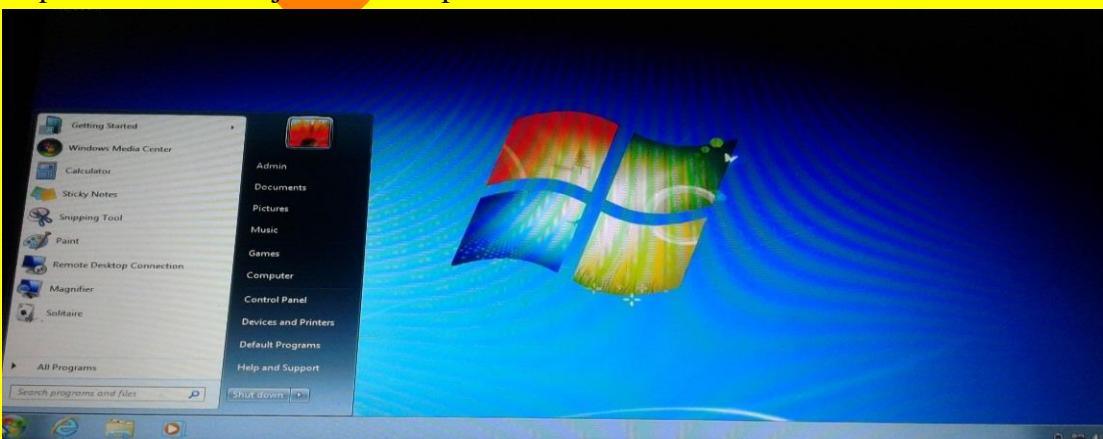

Depois mosu tan janela ida no hakerek Welcome nia janela mak hanesan iha kraik ne'e :

Depois prosesu hotu nia mosu tan janela no hakerek Preparing your desktop, no nia janela mak hanesan ita kraik ne'e :

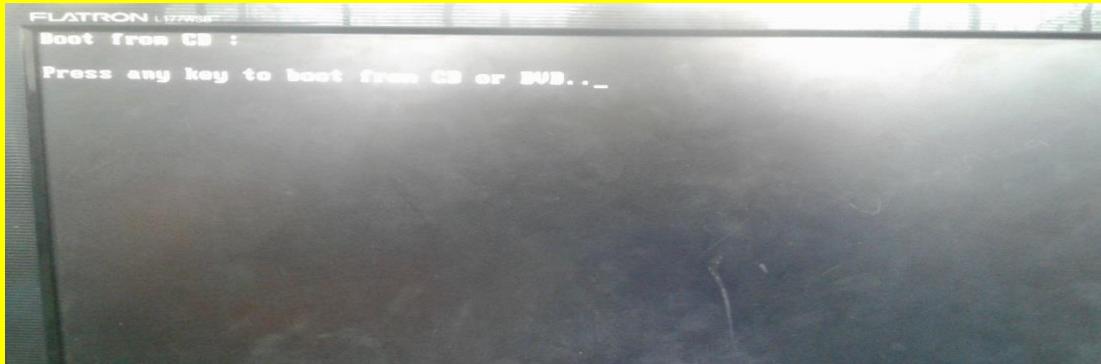

Depois ida ne'e mak janela desktop Windows 7 mak hanesan iha kraik ne'e :

- ## - Windows 8

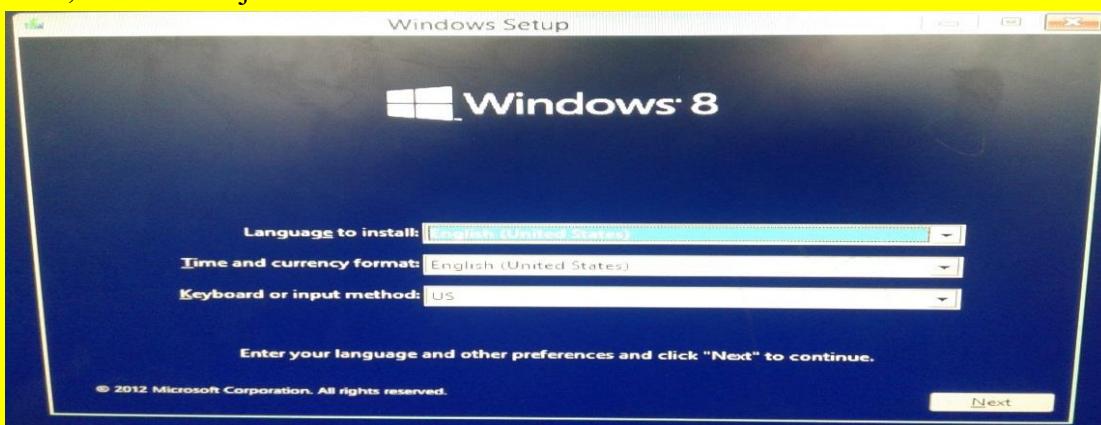

Prosesu intalasaun Sistem Operasi Windows 8, mak hanesan iha karaik ne'e, primeiru ita hatama uluk CD ba iha CD Rom no ita hanehan butaun Reset no komputador moris ita tama BIOS atu konfigura lai BOOT hotu ita save no komputador sei Restar rasik no nia mosu Press Any key to boot from CD or DVD no nia haruka ita atu hanehan butaun saida deit atu nu'une komputador lao ho CD/DVD mak hanesan iha janela ida iha kraik ne'e :

Depois nia mosu uluk logo windows 8 nian, mak hanesan janela ida iha kraik ne'e:

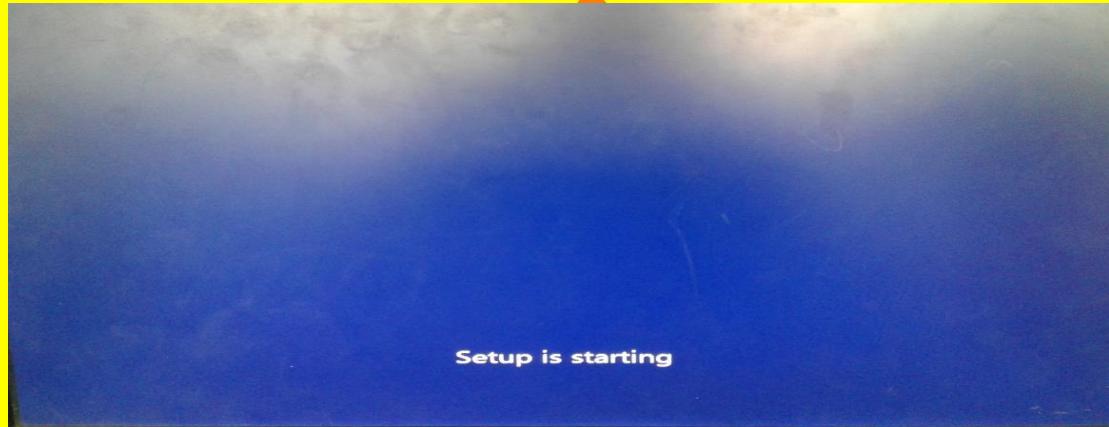

Depois nia sei mosu tan janela ida no nia haruka ita atu hili linguagem, hotu ita hili  
Next, hanesan iha janela kraik ne'e :

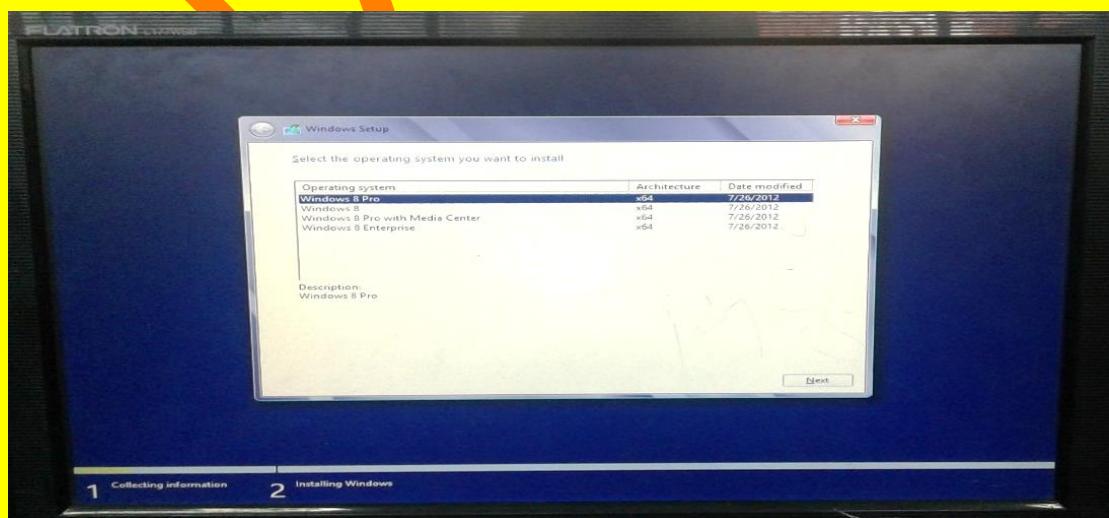

Depois nia mosu tan janela ida no nia haruka ita hili Install Now, mak hanesan iha janela kraik ne'e :

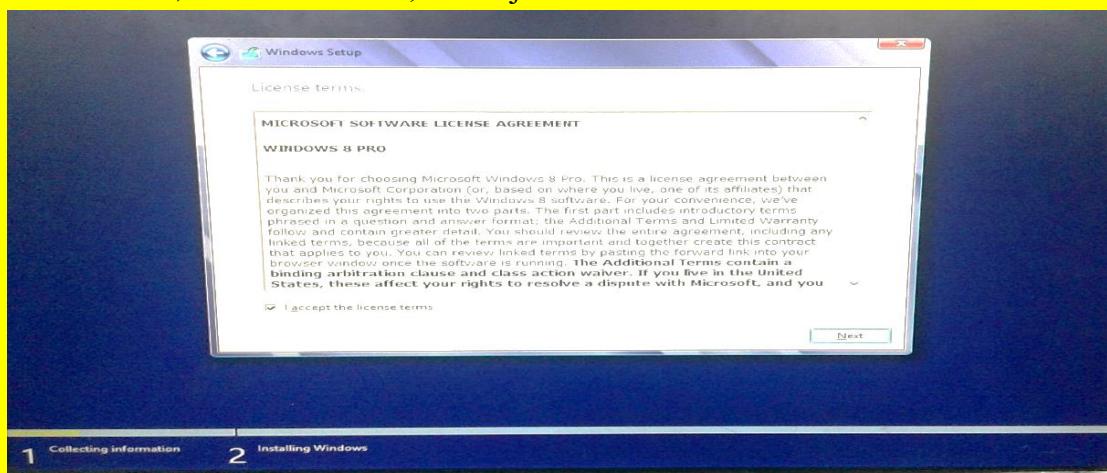

Depois nia mosu Setup us starting, no nia janela mak hanesan iha kraik ne'e :

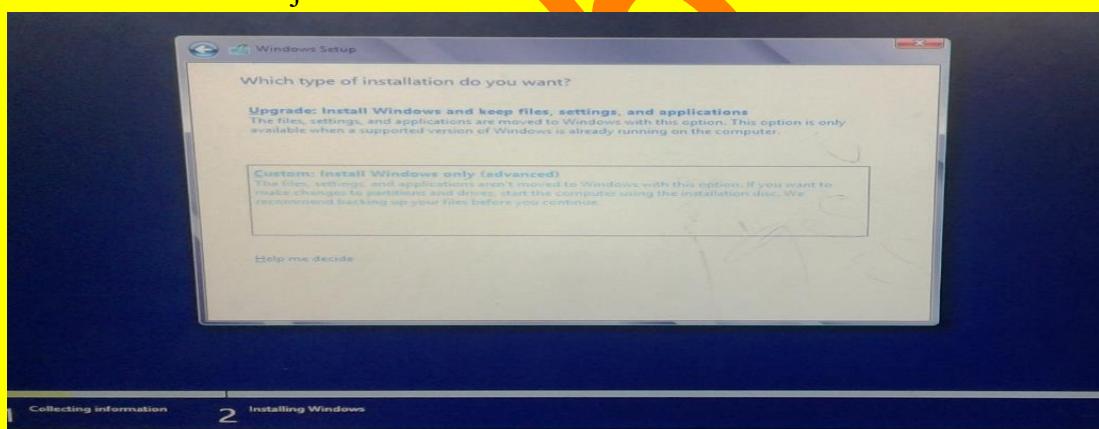

Depois nia mosu tan janela ida no ita hili Windows 8 pro hotu ita hili Next, nia janela mak hanesan iha kraik ne'e :

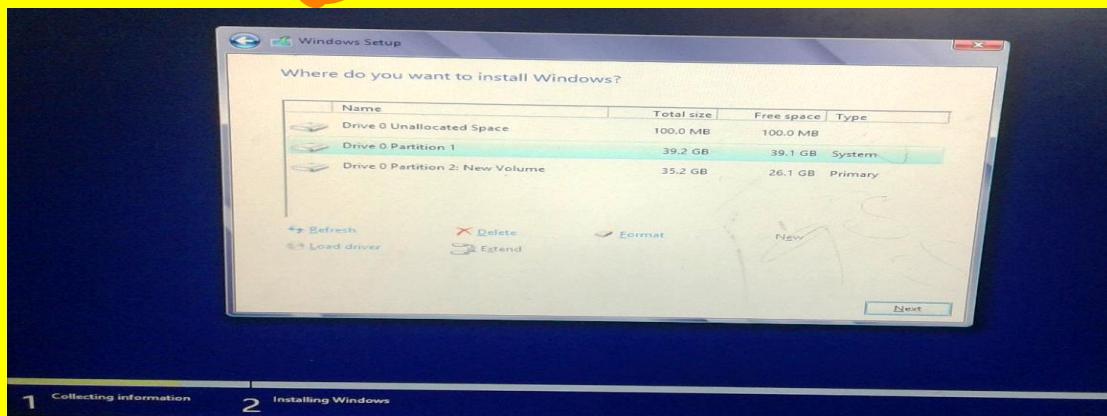

Depois nia sei mosu tan License windows 8 nian no ita fo vistu ba iha I accept the license terms, hotu ita hili Next, no nia janela mak hanesan iha kraik ne'e :

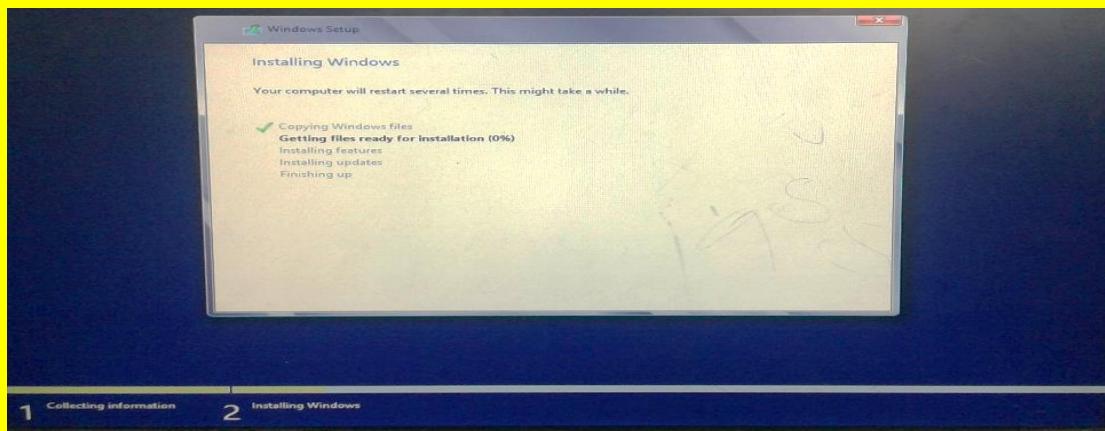

Depois nia mosu tan janela ida no nia fo tipu rua mak hanesan Upgrade no Custom no ita hili Custom no nia janela mak hanesan iha kraik ne'e :

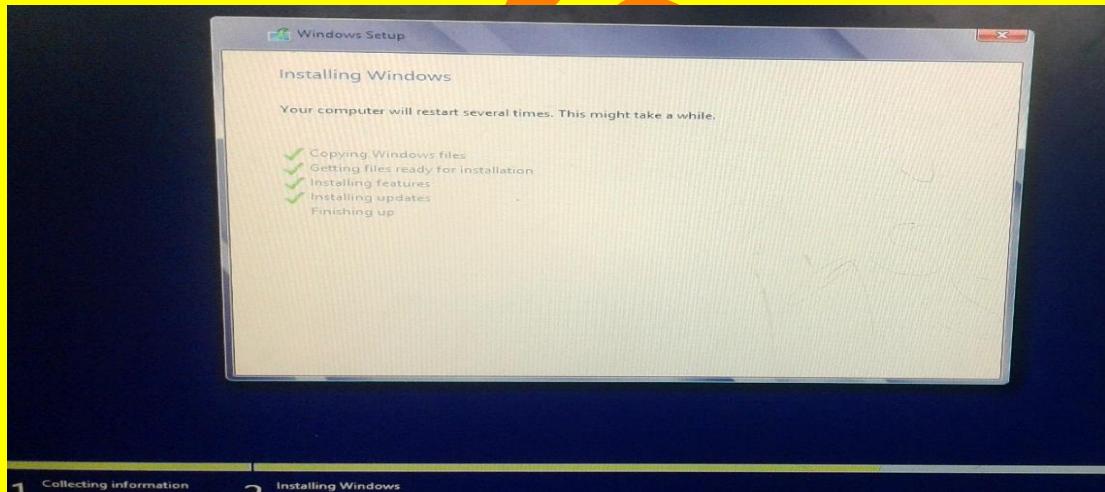

Depois nia mosu tan partici no ita hili Partition 1 hotu , ita hili Next nia janela mak hanesan iha kraik ne'e :

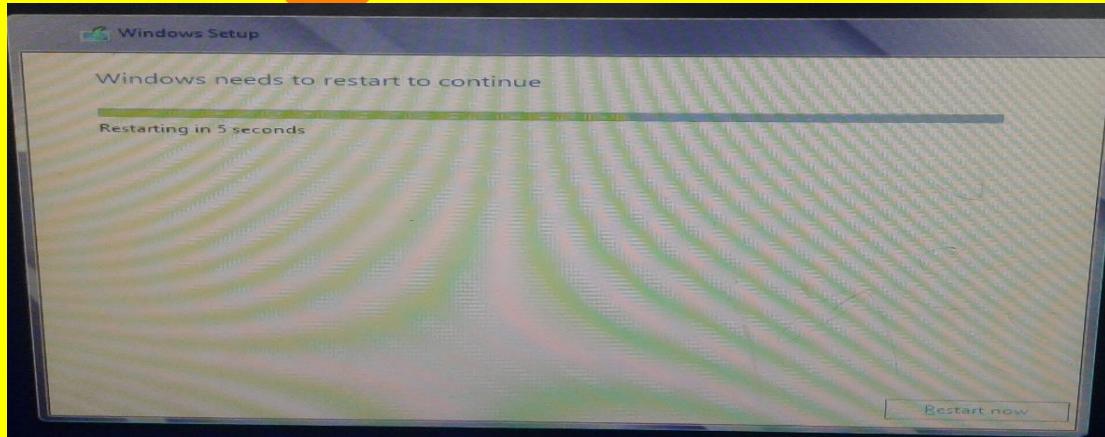

Depois nia mosu prosesu intalasaun nian no ita hein to nia prosesu hotu nia janela mak hanesan iha kraik ne'e :

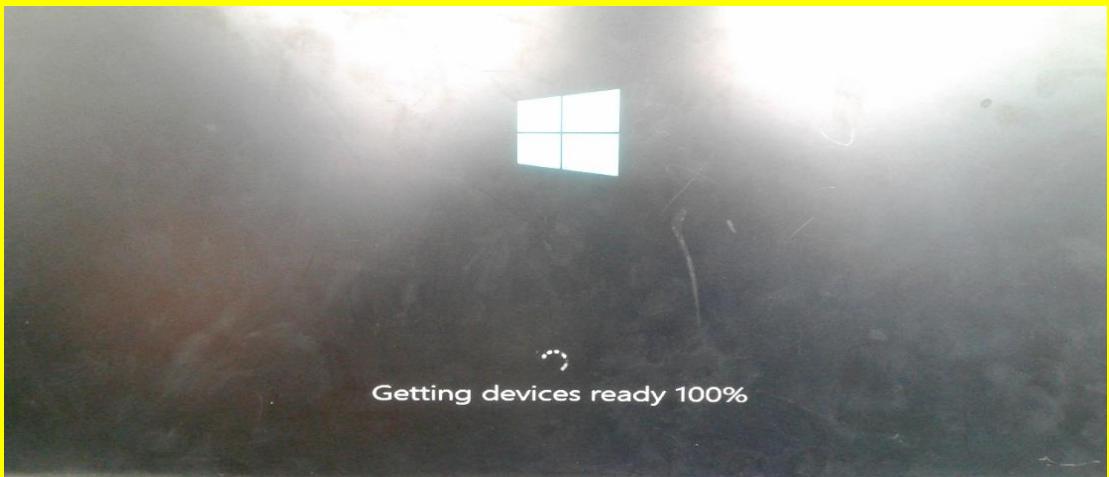

Depois nia instal to iha intaling update komputador sei Restar rasik no ita hein deit, nia janela mak hanesan iha krain ne'e :

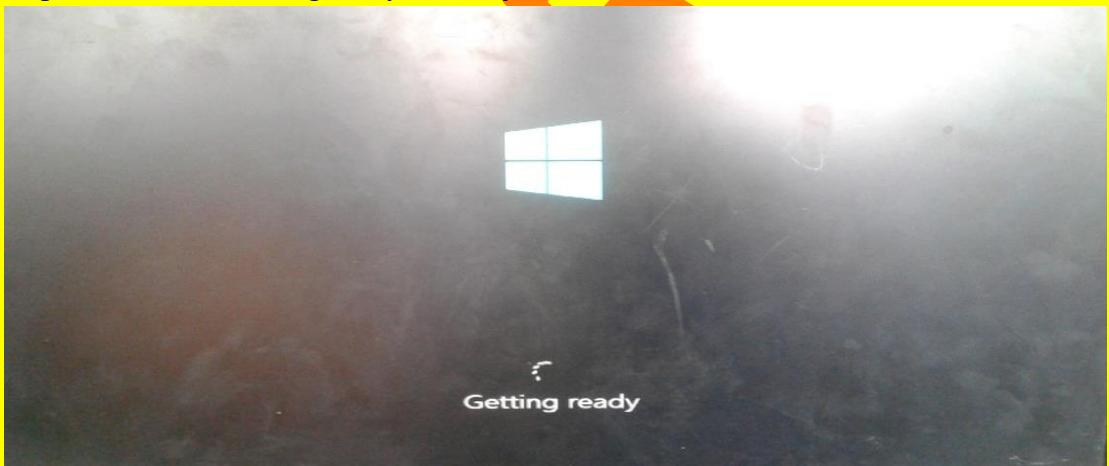

Depois nia Restas no ita hein deit nia janela Restar nian mak hanesan iha kraik ne'e :

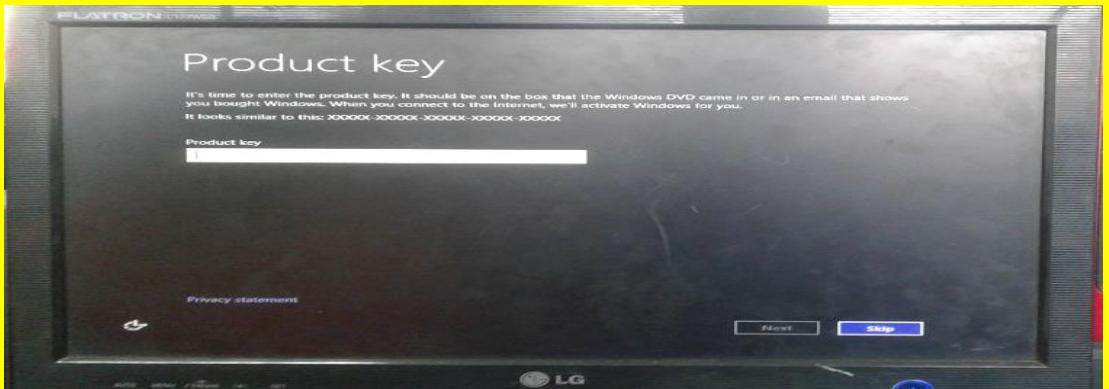

Depois de Restar nia mosu Gettig devices ready no ita hein to 100%, no nia janela mak hanesan iha kraik ne'e :

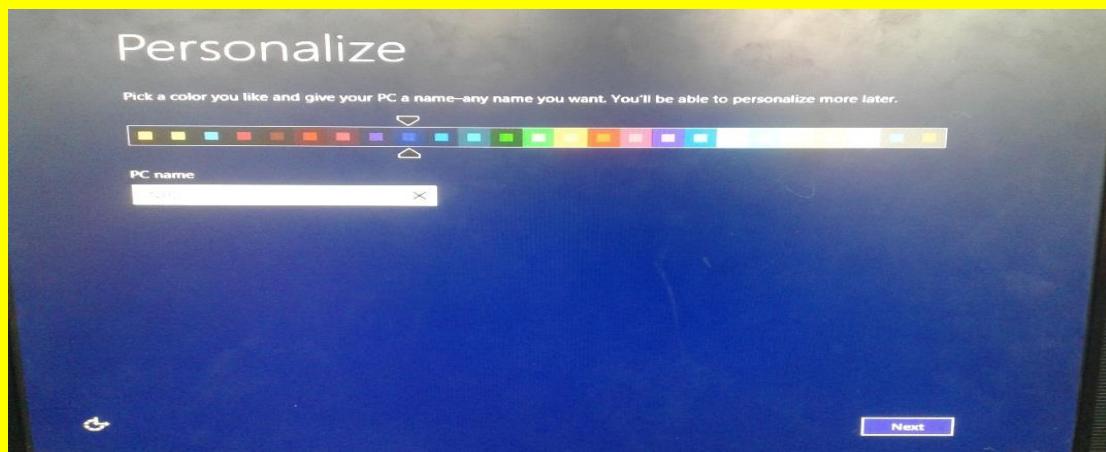

Depois nia mosu Getting ready, no nia janela mak hanesan iha kraik ne'e :

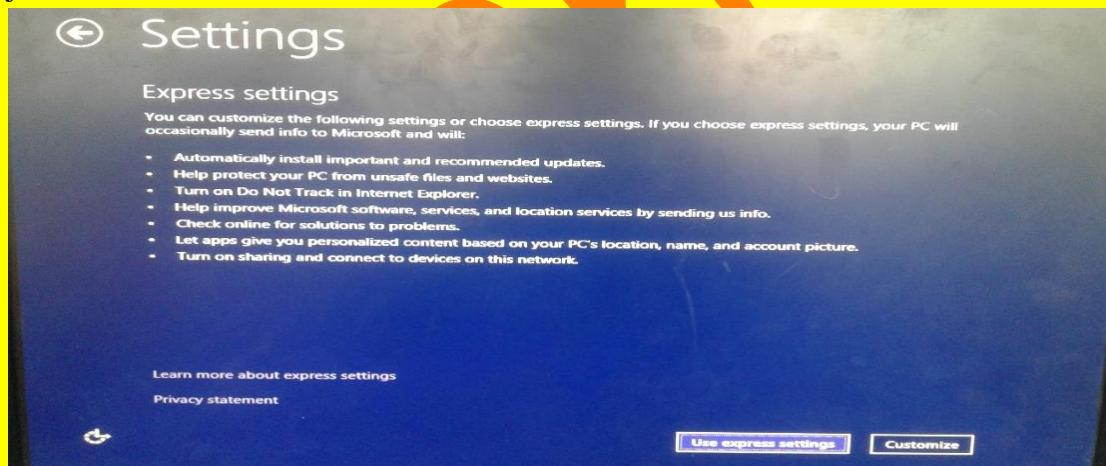

Depois nia mosu tan janela ida no nia haruka ita atu tau produc key no ita hili deit Skip, no nia mak hanesan iha kraik ne'e |:

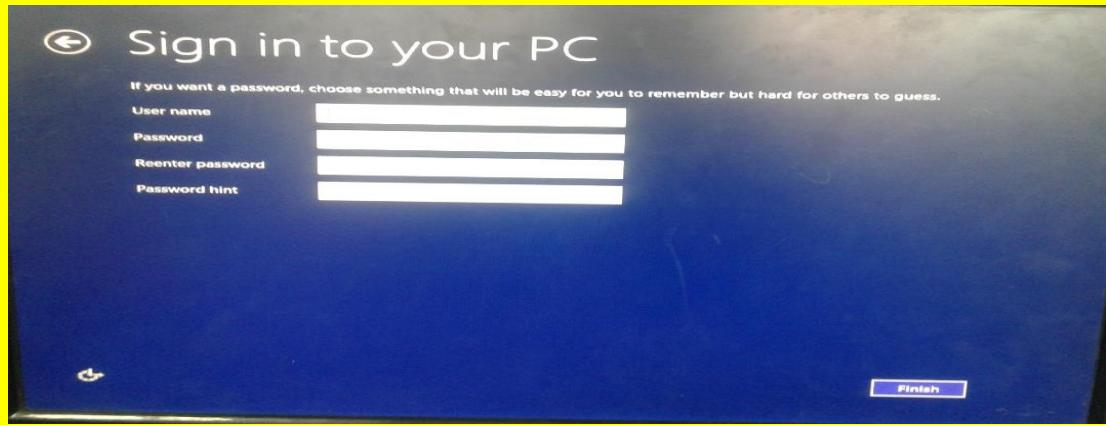

Depois nia mosu tan janela iha hodi haruka ita atu tau komputador nia naran no haruka ita atu hili kor, hotu ona no ita hili Next, no nia janela mak hanesan iha kraik ne'e:

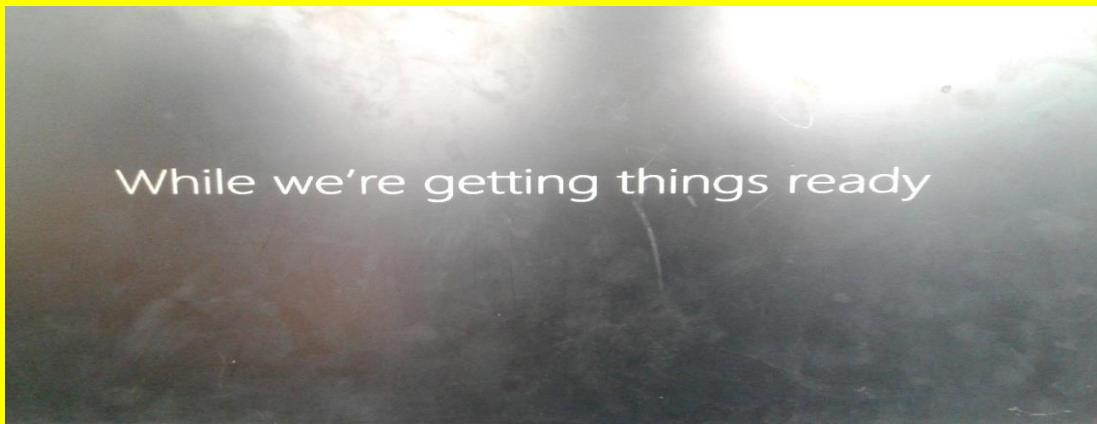

Depois nia mosu janela iha no hakerek Settings no ita hili Use express settings, no nia janela mak hanesan ida iha kraik ne'e:

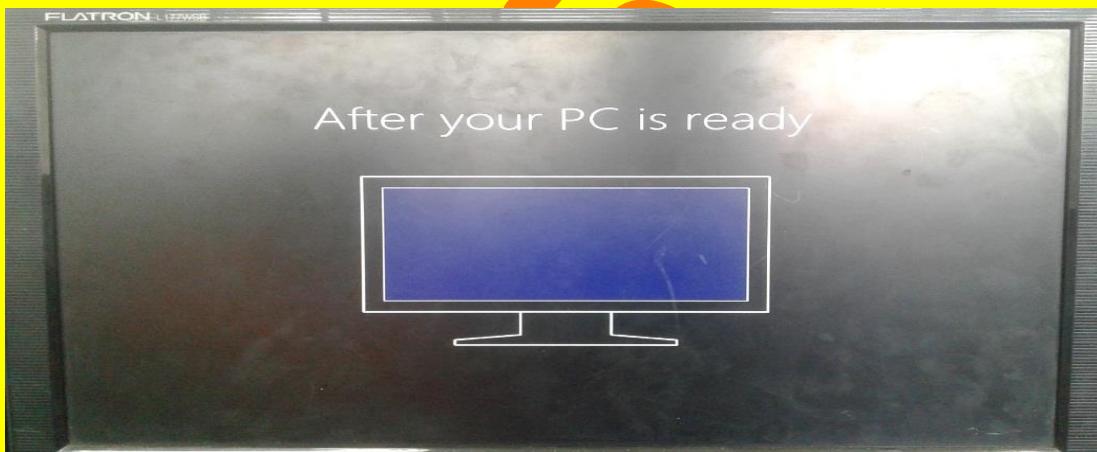

Depois nia haruka ita atu tau ita nia naran no komputador nia password, hotu ita hili Finis, mak hanesan iha janela kraik ne'e:

Depois mosu tan janela ida ho hakerek Whilw we're getting things ready, mak hanesan iha janela ida kraik ne'e :

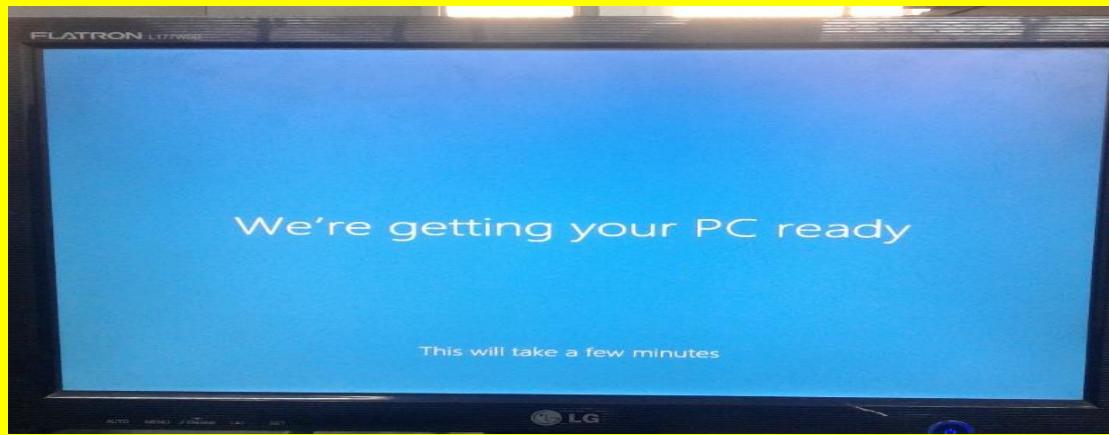

Depois nia mosu tan janela ida ho hakerek After your PC ready no nia janela mak henesan iha kraik ne'e :

Depois nia mosu tan janela ida ho hakerek Move your mouse into any corner no nia janela mak hanesan iha krain ne'e :

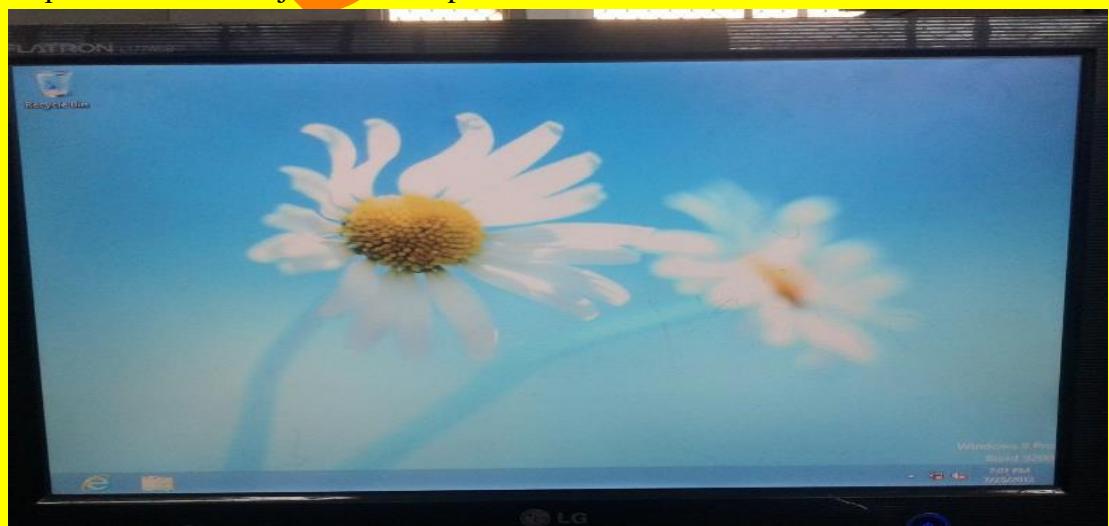

Depois nia mosu tan janela ida ho hakerek We're getting your PC ready, nia janela mak hanesan iha kraik ne'e :

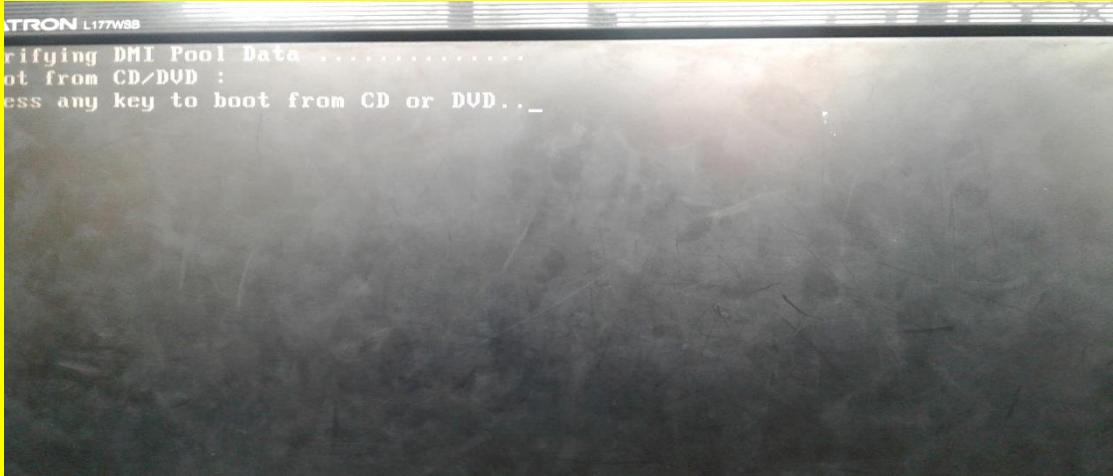

Depois nia mosu tan janela All program windows 8 nian, no ita hili Desktop no nia janela mak hanesan iha kraik ne'e :

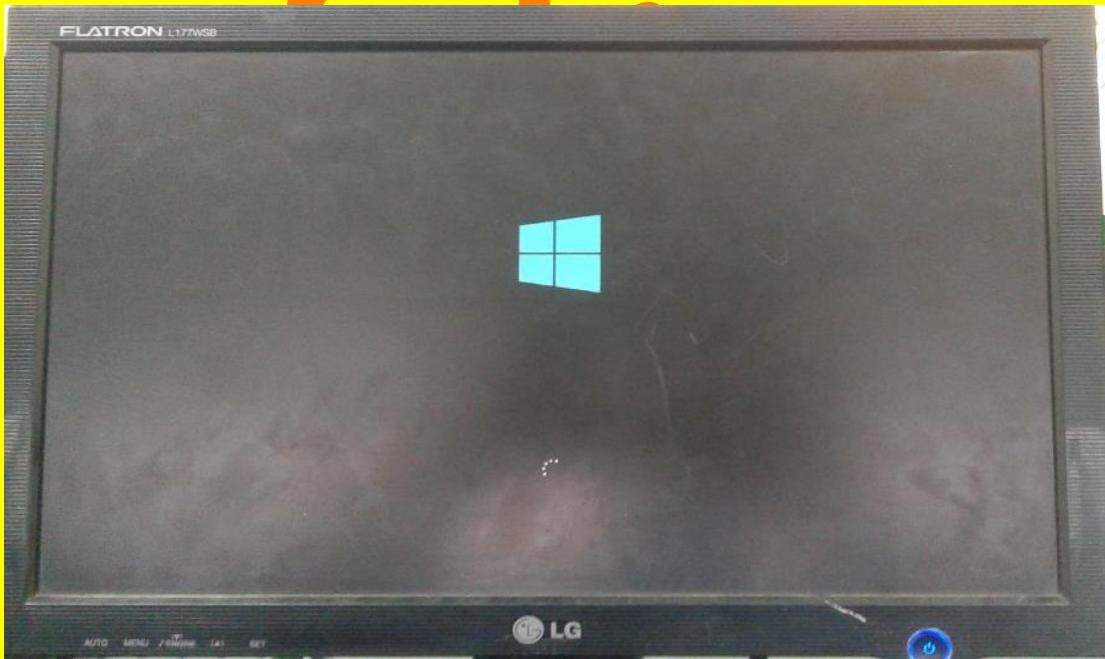

Depois ida ne'e mak janela desktop windows 8 nian.

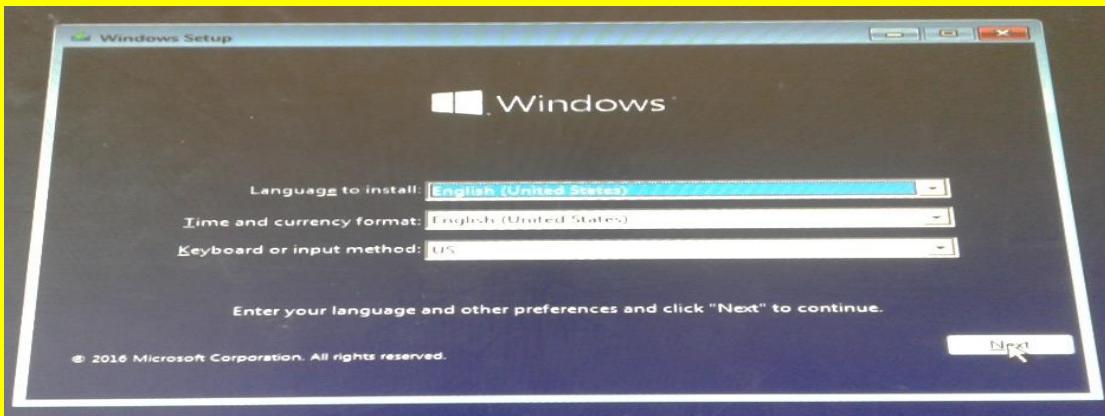

- Windows 10
  - Prosesu intalasaun Sistem Operasi Windows 10, mak hanesan iha karaik ne'e, primeiru ita hatama uluk CD ba iha CD Rom no ita hanehan butaun Reset no komputador moris ita tama BIOS atu konfigura lai BOOT hotu ita save no komputador sei Restar rasik no nia mosu Press Any key to boot from CD or DVD no nia haruka ita atu hanehan butaun saida deit atu nu'une komputador lao ho CD/DVD mak hanesan iha janela ida iha kraik ne'e :

Depois nia sei lao ho CD, no nia janela mak hanesan iha kraik ne'e:

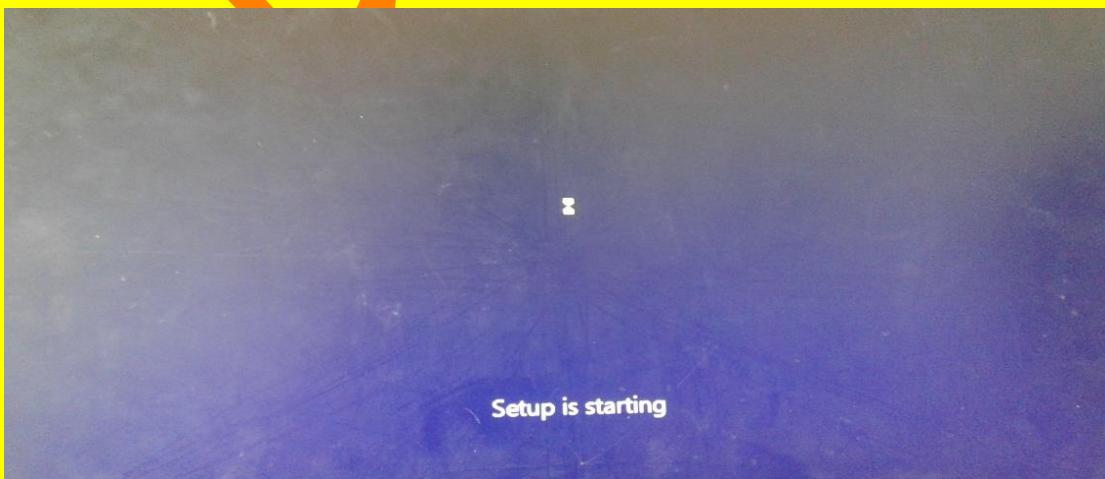

Depois nia mosu tan janela ida no haruka ita atu hili linguangem, hotu ita hili Next, no nia janela mak hanesan iha kraik ne'e :

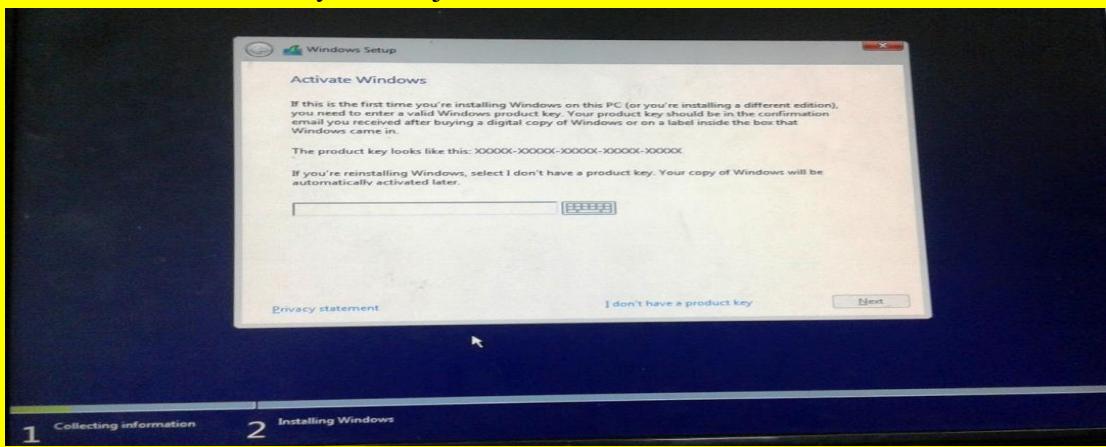

Depois nia mosu tan janela ida no ita hili Instal Now, nia janela mak hanesan iha kraik ne'e :

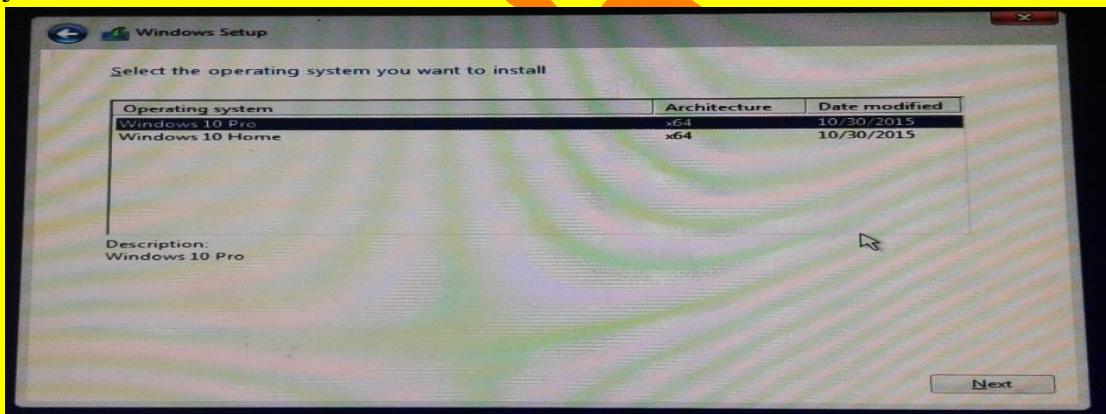

Depois nia mosu tan janela ida ho hakerek Setup Starting, nia janela mak hanesan iha kraik ne'e :

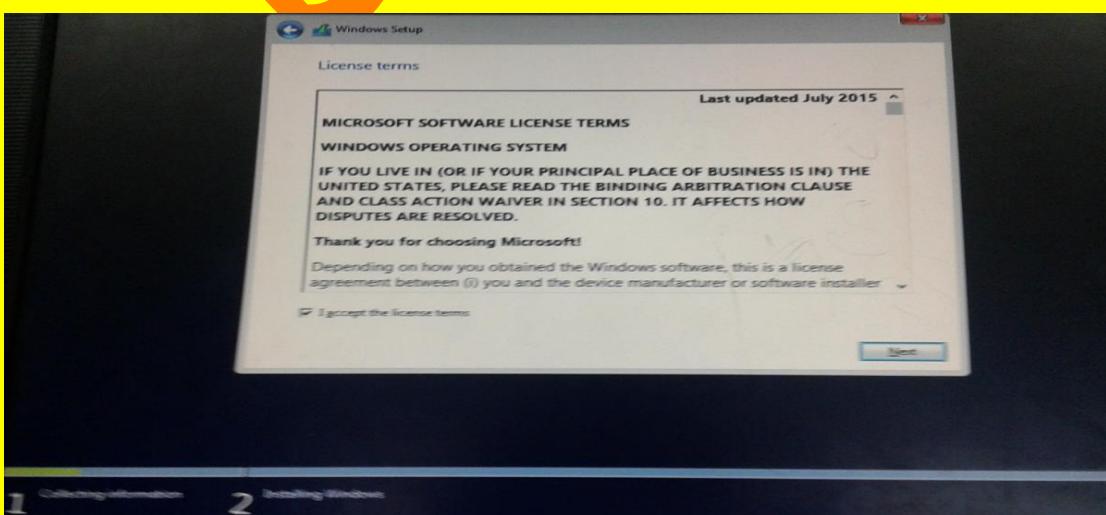

Depois nia mosu tan janela ida no haruka ita atu tau nia Product Key, no ita hili I don't have a Product Key, no nia janela mak hanesan iha kraik ne'e :

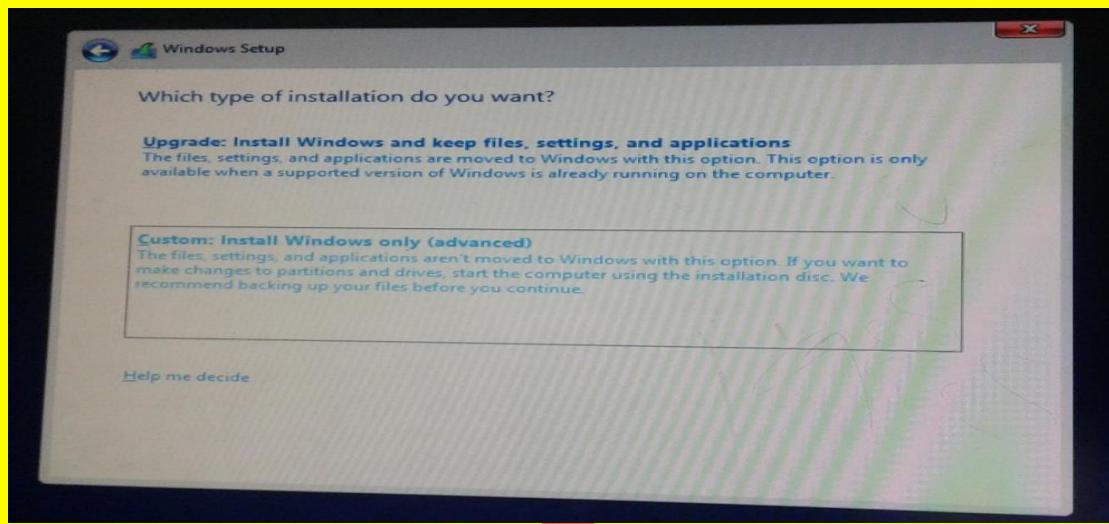

Depois nia nia mosu tan janela ida no ita hili Windows 10 Pro, hotu ita hili Next, nia janela mak hanesan iha kraik ne'e :

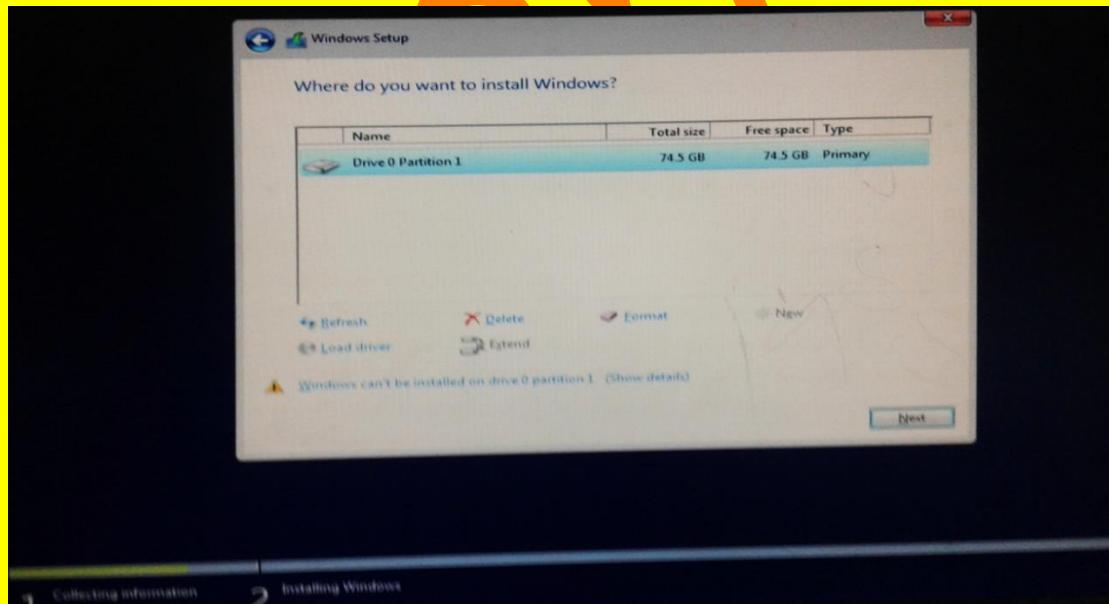

Depois nia mosu License no ita hili fo vistu ba iha I accept the license, hotu ita hili Next no nia janela mak hanesan iha kraik ne'e :

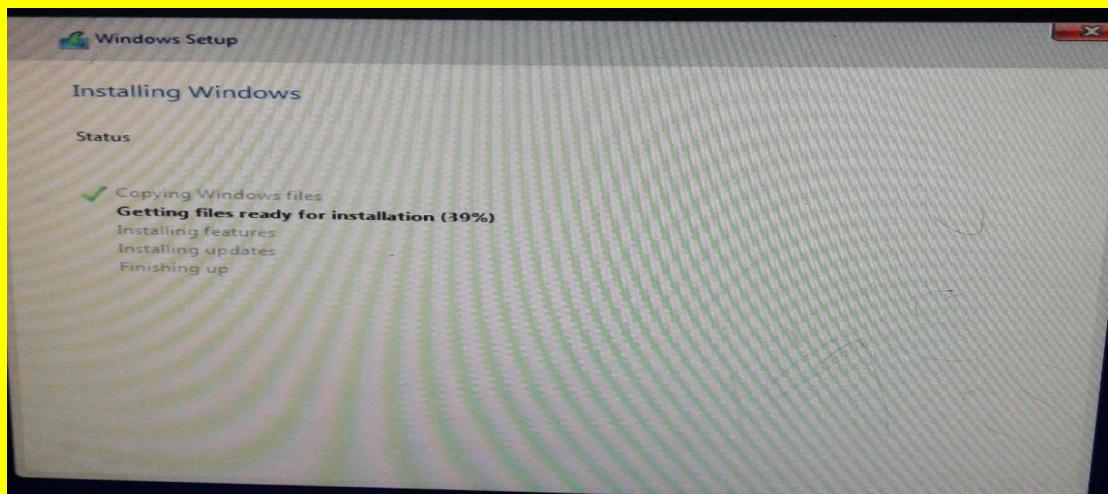

Depois nia mosu tan janela ida no ita hili deit Custom, no nia janela mak hanesan iha kraik ne'e :

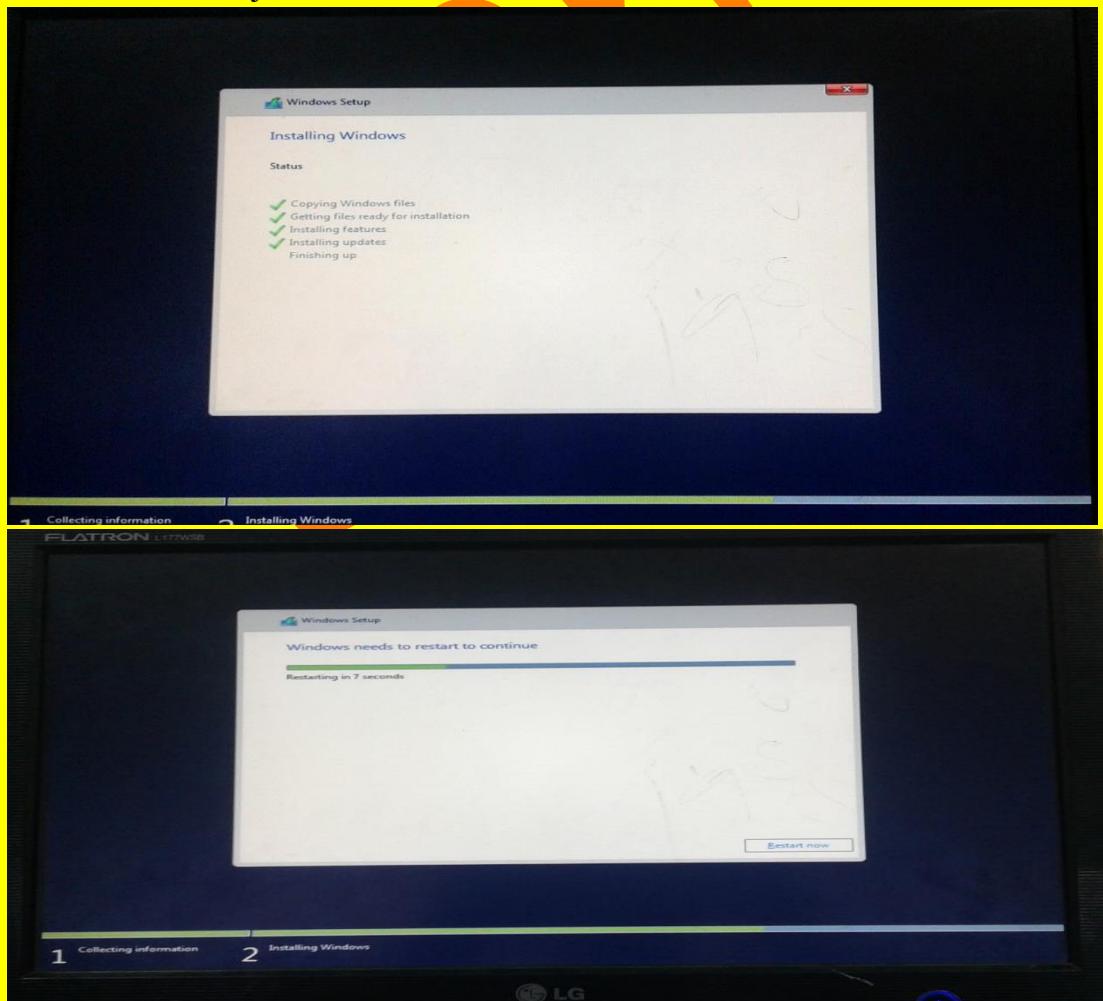

Depois nia mosu partici no ita hili Partition 1, hotu ita hili Next, no nia janela mak hanesan iha kraik ne'e :

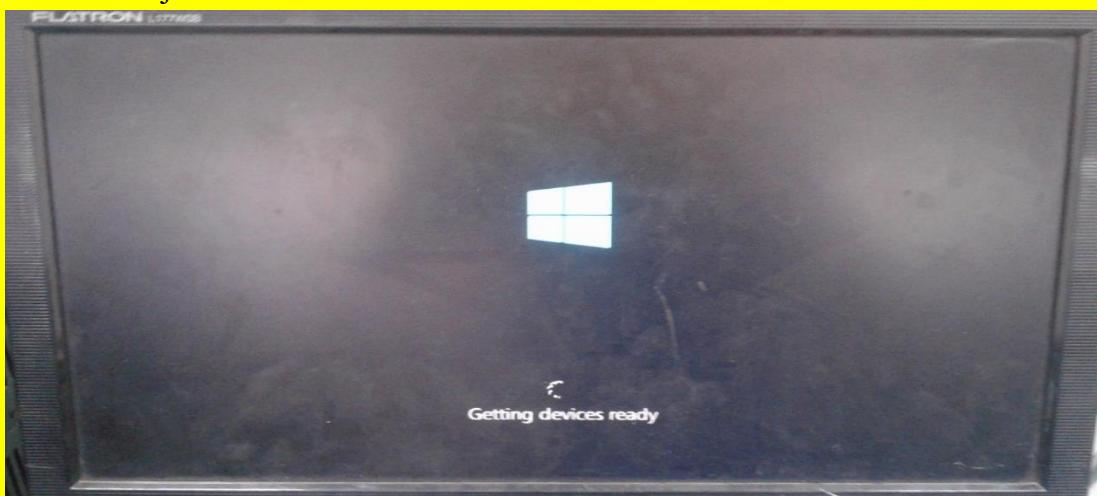

Depois nia mosu prosesu instalasaun no ita hein to instalasaun hotu,nia janela mak hanesan iha kraik ne'e :

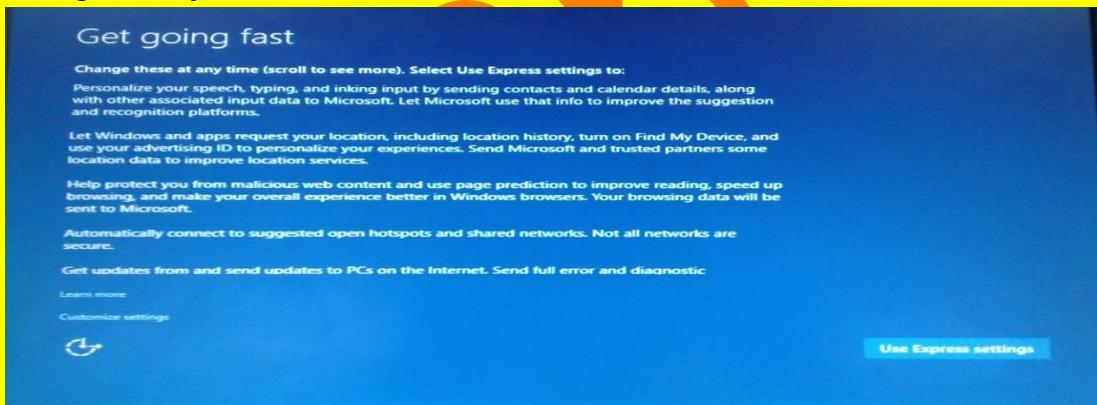

Depois nia processu instalasaun nian to ona iha Instalin Update no komputador sei Restar rasik no nia janela mak hanesan iha kraik ne'e :

Depois de Restar nia mosu tan janela ida no hakerek Getting device ready, mak hanesan iha janela kraik ne'e :

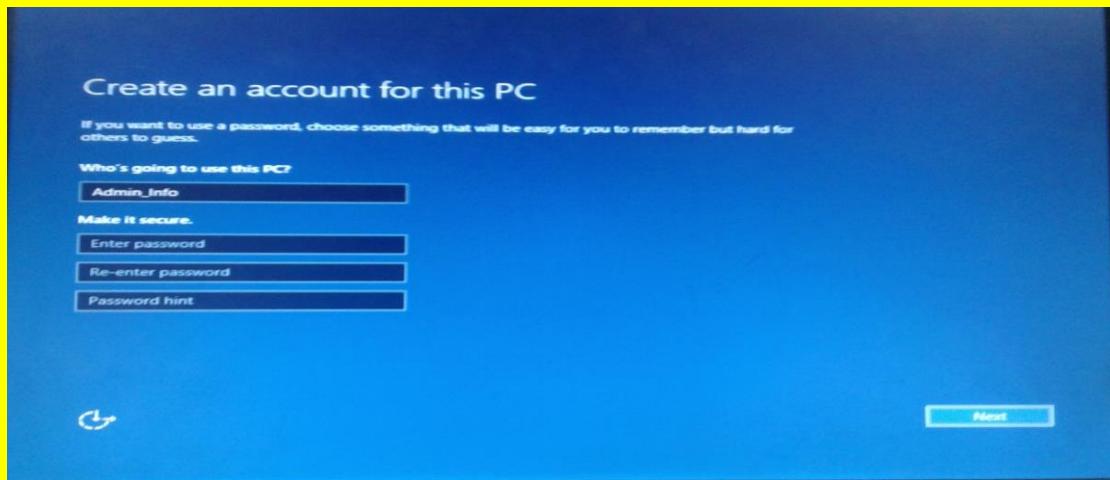

Depois nia mosu tan janela ida no hakerek Get going fast, no ita hili Use Express setting, no nia janela mak hanesan iha kraik ne'e :

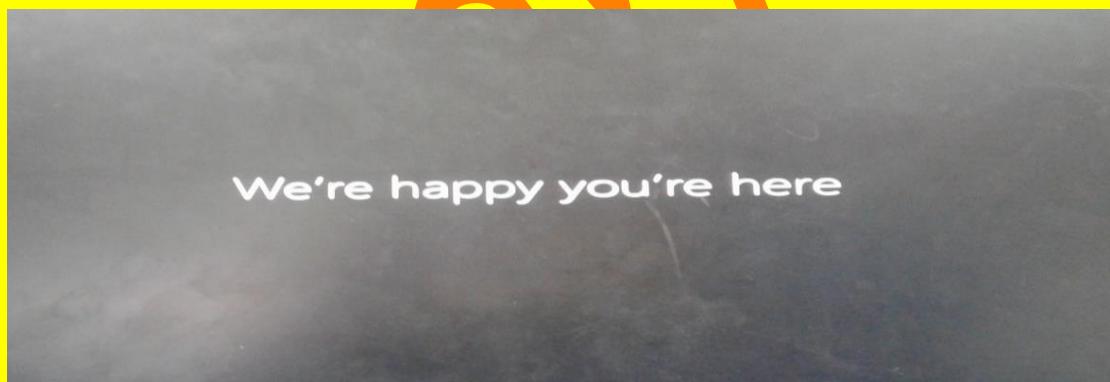

Depois nia mosu tan janela no hakerek just a moment, no ita hein kleur uitoan, no nia janela mak hanesan iha kraik ne'e :

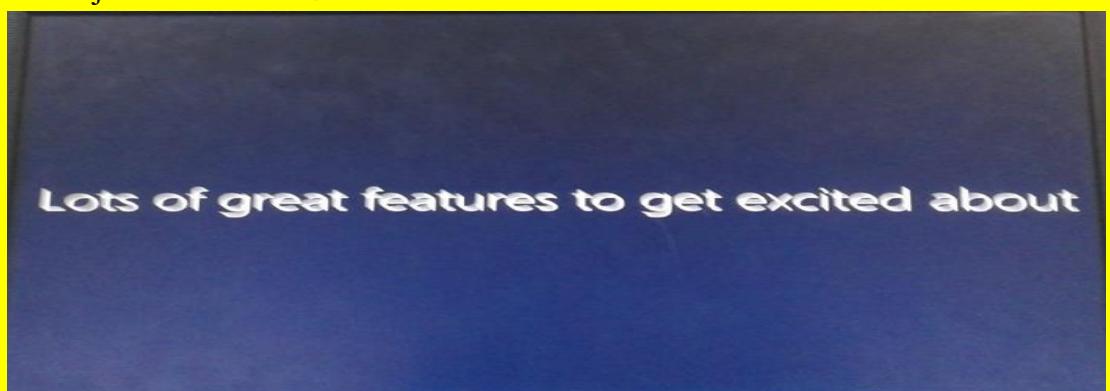

Depois nia mosu tan janela ida no nia haruka ita atu tau Komputer nia naran, no haruka mos ita atu tau pasword hotu, ita hili Next no nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela ida no hakerek We're happy you're here, no nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela ida no hakerek Lots of great features to get excited about, no nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela ida no hakerek Getting everything ready for you, no nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela no hakerek Let's star no nia janela mak hanesan iha kraik ne'e :

Depois nia mosu tan janela desktop Sistem Operasi Windows 10, no nia janela mak hanesan iha kraik ne'e :
